

NG JEE CHIAN

Computer Science Student (AI) · Asia Pacific University

Petaling Jaya, Selangor, Malaysia | Email | GitHub | LinkedIn | Portfolio

SUMMARY

Computer Science (AI) student at Asia Pacific University with hands-on experience across full-stack web development, data analytics, and machine learning. Background spans internship-based product delivery, hackathon prototyping, and independent game development. Seeking a July 2026 internship to apply strong fundamentals in software engineering and data-driven problem solving to real-world projects.

EDUCATION

Bachelor of Computer Science, specializing in Artificial Intelligence

Sep 2025 – Present

Asia Pacific University (APU)

GPA: 3.65 / 4.0 | Expected Graduation: 2027

- Coursework: Machine Learning, Data Structures & Algorithms, Database Management, Software Development Lifecycle, Multithreading & Concurrency

Diploma in Computer Science

Apr 2023 – Aug 2025

INTI International College Subang

- Studied core computer science fundamentals including object-oriented programming, data structures, and software development principles.

EXPERIENCE

APU Sustainability Hackathon 2026

Mar 2026 – May 2026

Asia Pacific University (APU)

- Developed TrueFlow, a prototype web platform to verify water source quality claims.
- Demonstrated critical thinking through idea generation, impact evaluation, and feasibility analysis.

React · Node.js · Supabase

Full Stack Web Developer — Internship & Part-Time

Jan 2025 – Jun 2025

BLNC Tech

- Built a web-based e-commerce client prototype (AutoLab) enabling product browsing and a complete checkout flow.
- Developing an admin dashboard for managing products, orders, and transactions.
- Continued as a part-time developer post-internship to improve features, fix bugs, and support ongoing updates.

React · JavaScript · HTML/CSS · Supabase

Alumni Sharing Event Speaker

Dec 2024

- INTI International College Subang
- Invited by the Head of Program to share insights and experiences with Certificate in Information Technology students.

PROJECTS

Excel Analyzer — Data Analysis

Jun 2026

A web application for uploading, previewing, and analyzing Excel files with configurable summaries, column filtering, and group-by capabilities.

Next.js · TypeScript · React · Data Analysis

[Code](#) [Live](#)

Waking Demon — Game Dev

Jun 2026

WAKING DEMON is a 2D action game where the player battles a beast in a forest, with gameplay driven by a timed event system. It features ranged and melee combat, a rage transformation mechanic, and multiple endings.

Python · Pygame · Special Effects

[Code](#)

TunePilot — Web App

Jun 2026

TunePilot is a web-based Learning Management System (LMS) for music education, designed to provide accessible and structured online learning for students. Built using ASP.NET Web Forms and Microsoft SQL Server LocalDB.

ASP.NET · C# · MSSQL

[Code](#)

TrueFlow — Web App

May 2026

Developed a prototype web platform to verify water source quality claims. Demonstrated strong critical thinking through idea generation, impact evaluation and feasibility analysis

React · Node.js · Supabase · Hackathon

[Code](#) [Live](#) [Certificate](#)

UNSW-NB15 Network Intrusion Dataset - Data Analysis

Jan 2026

Investigated SloSS and DloSS to detect network attacks using statistical and machine learning techniques including logistic regression and Apriori analysis.

R Language · Machine Learning · Data Analysis

[Code](#)

AutoLab (Client & Admin) – Web App

May 2025

Internship-built e-commerce platform: a client-facing prototype for browsing products and completing checkout, and an admin dashboard for managing products, orders, and transactions.

HTML/CSS · JavaScript · Supabase

(Client) [Code](#) [Live](#) (Admin) [Code](#) [Live](#)

LumberJack Blues — Game Dev (Final Year Project)

Nov 2024

2D Unity game where players chop trees, earn money, upgrade attributes, and unlock skills using custom C# mechanics.

Unity · C#

[Code](#)

TECHNICAL SKILLS

Languages: C++, C, C#, Python, Java, R, SAS, NASM

Web Development: React, Next.js, Node.js, Tailwind CSS, JavaScript, HTML/CSS, ASP.NET

Databases: Microsoft SQL Server (MSSQL), MongoDB, Supabase

Tools & Platforms: Git, Visual Studio, PyCharm, NetBeans, Unity, Vercel, Figma

Concepts: Object-Oriented Programming, Data Structures & Algorithms, Database Management, Cybersecurity Fundamentals, Machine Learning, Data Analysis, Software Development Lifecycle, Multithreading & Concurrency

LANGUAGES SPOKEN

English, Malay, Chinese
